YOUR MONEY IS WORKING
THE QUESTION IS: FOR WHOM?

Every day, the markets move trillions of dollars. Whether you participate or not, the movement continues. Meanwhile, idle money loses purchasing power.

Most people do not participate for three reasons

They do not know how to get started **without taking on too much exposure.**

They do not have the **time or experience** to trade.

They cannot find a **serious and verifiable system.**

AITECH ONE bridges that gap with a financial trilogy: **Trading, Exchange and Visa Cashback.** Three business units within the same ecosystem.

You do not need to predict the market. **You need a system to participate in it.**

WHAT IS AITECH ONE?

One community. One ecosystem. Three business units.

A financial trilogy featuring independent products, mechanisms, and participation plans.

TAG MARKETS

SYSTEMATIC TRADING
Tag Markets

Automated strategies without depending on your time, experience, or emotions.

Bit1

EXCHANGE
Bit1

REGULATORY REGISTRATIONS

DASP — El Salvador

MSB — Canada

Global access. Simple trading. Regulated infrastructure.

Simple to get started. **Powerful enough to trade.**

YOUR CRYPTO, IN THE REAL WORLD

The crypto card accepted at more than **100 million locations** wherever Visa is accepted.

BixCard is the financial mobility unit within the AITECH ONE ecosystem: a Visa card backed by your own digital assets, without anyone else controlling your money.

What makes it different:

Non-custodial
Your keys, your crypto, always. You maintain full control of your assets.

Collateral in USDT and USDC
available across more than four different blockchain networks.

Pay | G Pay
Compatible with **Apple Pay and Google Pay**
Tap and go.

Instant **cross-chain swaps** with low fees.

Customizable **spending limits** based on what you need.

Visa Signature Benefits

Access to airport VIP lounges, rental car insurance, travel insurance, up to 65% off hotels, access to exclusive events, and a 24/7 personal concierge.

Military-Grade Security, Non-Custodial

Your keys are never stored in full. They are divided using Shamir's Secret Sharing and operated in secure environments certified under SOC 2 Type II, with three independent audits: Cure53, Zellic, and Doyensec.

This is not crypto for display. **It is crypto you can use anywhere in the world.**

REVISAR

Results may vary. **Transparency should not.**

LEVERAGE

GREATER TRADING CAPACITY WITH THE SAME CAPITAL

X24

Leverage allows you to trade a larger position using the same initial capital.
Instead of increasing your investment, it increases your account's market exposure.

EXAMPLE WITH **$1,000** IN CAPITAL

Without leverage

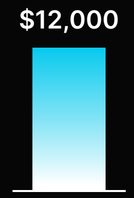

Initial capital:	**$1,000**
Trading capital:	**$1,000**
Market movement:	**1%**

RESULT: +$10

x12 Account

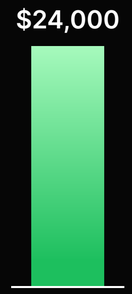

Initial capital:	**$1,000**
Trading capital:	**$12,000**
Market movement:	**1%**

RESULT: +$120

x24 Account

Initial capital:	**$1,000**
Trading capital:	**$24,000**
Market movement:	**1%**

RESULT: +$240

What does this mean?

With greater trading capacity, market movements may generate larger results. They may also amplify losses.
Results are approximate and may vary.

The initial capital may remain the same. **What changes is your market exposure.**

8 WAYS TO GENERATE INCOME WITHIN A SINGLE ECOSYSTEM

Your capital works. Your network works. Both generate income at the same time.

Tag Markets' compensation plan does not rely on a single source of income. It includes eight mechanisms that operate simultaneously, each with its own payment frequency:

1 Lot Commissions

Commission on each lot traded within your network, across up to 10 levels.

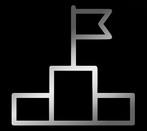

2 Profit Share

A share of the profits generated by your network.

3 Leader Pool 1

An additional fund for leaders with active teams.

4 Leader Pool 2

A second leadership fund for higher ranks.

5 CPA Earnings

Tiered commission based on your network's deposit volume.

6 Sonic Pool

A monthly pool shared among qualified IBs.

7 Profit Pool

Additional commission based on trading volume.

8 Trips and Incentives

Dubai or the Dominican Republic.

Your capital works. Your network works. Both generate income at the same time.

BUILD A NETWORK
THAT EXPANDS VALUE

Each trade can generate participation for the person trading, the traders, and the network you build.

RESULT DISTRIBUTION

70%
For the investor or networker who participates directly.

25%
Distributed throughout the network, across up to 10 levels. 2.5% per level.

5%
For the three German traders responsible for executing the strategy.

In addition, each lot traded within your network can generate a commission of up to: $8.50 PER LOT

PROFIT SHARING

Level	% Participation
Level 1	2.5%
Level 2	2.5%
Level 3	2.5%
Level 4	2.5%
Level 5	2.5%
Level 6	2.5%
Level 7	2.5%
Level 8	2.5%
Level 9	2.5%
Level 10	2.5%

TOTAL NETWORK: **25%**

DIRECT COMMISSION PER LOT

Level	$ per lot
Level 1	$2.00
Level 2	$1.50
Level 3	$1.00
Level 4	$1.00
Level 5	$0.50
Level 6	$0.50
Level 7	$0.50
Level 8	$0.50
Level 9	$0.50
Level 10	$0.50

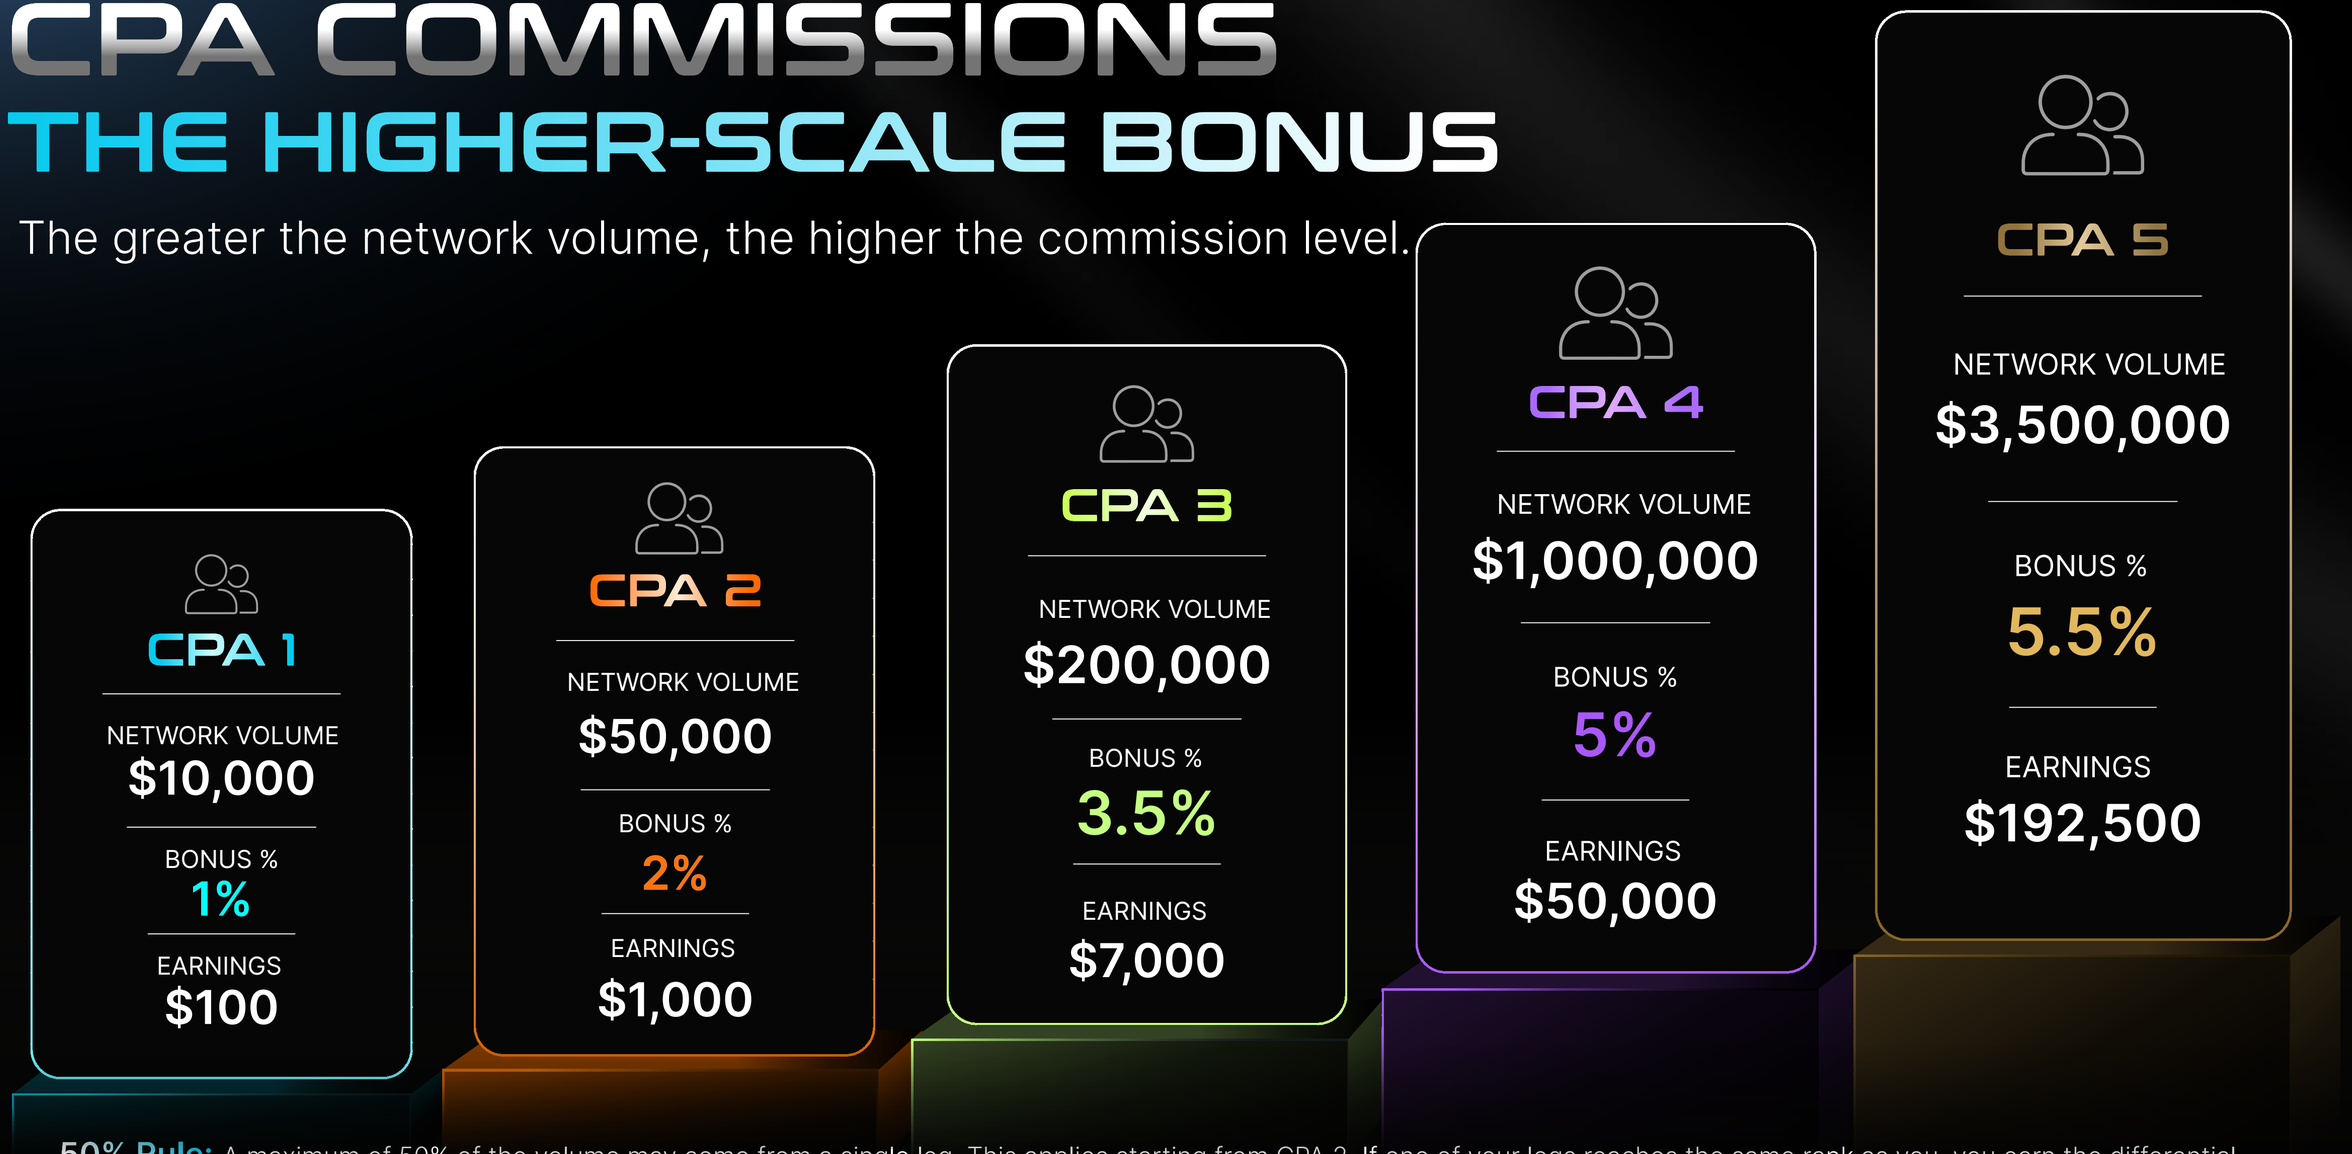

MAXIMUM TOTAL: **$8.50 PER LOT**

Results and commissions may vary and depend on trading activity, network structure, and the current terms of the plan.

You are not just building a team. You are building a network that participates in every trade.

CPA COMMISSIONS
THE HIGHER-SCALE BONUS

The greater the network volume, the higher the commission level.

50% Rule: A maximum of 50% of the volume may come from a single leg. This applies starting from CPA 2. If one of your legs reaches the same rank as you, you earn the differential.

Monthly qualification runs from the **1st** to the **30th**; network volume resets every month.

More legs. More balance. More potential.
